REDEFINE THE POSSIBLE

"some of the most forward-thinking products in existence."

What Hi-Fi? Sound and Vision November 2009

The Q Acoustics 2000i Series

The new 2000i Series loudspeakers are clearly our best ever range. We also believe they are sonically the best affordable speakers ever produced.

An outrageously bold statement? Well bold certainly, but outrageous? We don't think so. We urge everyone to audition these new models for themselves. We're confident that once you have heard them, you'll agree they are simply outrageously good loudspeakers for the money.

The design brief for the new 2000i models was to improve on the award winning 2000 series. Given the performance of the previous models, that was never going to be easy and the design team decided the only way to achieve this goal was to investigate and then exploit the very latest breakthroughs in materials technology.

Put simply, the substantial sonic advances delivered by the new Q Acoustics 2000i Series loudspeakers are the result of extensive scientific research.

Already 'What Hi-Fi? Sound & Vision' magazine has bestowed its prestigious 'Best traditional 5.1 speaker package up to £700' award on the 2000i series 5.1 loudspeaker package and also anointed the compact bookshelf 2020i model 'Best Stereo Speakers up to £200'.

2000i Series 5.1 Cinema Pack

In the award winning 2000i Cinema Pack, our designers have transcended their previous achievements. Its precision soundstage, powerful dynamics and rich deep bass make it the natural choice for both home cinema enthusiasts and discerning music lovers.

"Articulate, dynamic and capable
of the necessary big bangs,
this is a quality system"

What Hi-Fi? Sound and Vision November 2011

**2010i Compact Bookshelf /
Wallmount Speaker**

This 'Five Star' ultra compact bookshelf speaker sets new standards for sonic performance in its class. Boasting class leading distortion levels, it is suitable for both hi-fi music and home cinema use and is an ideal match for the 2000Ci centre speaker and 2070Si subwoofer. The 2010i can also be stand or wall mounted, using the dedicated 2000ST stand or 2000WB wall bracket.

**2020i Bookshelf /
Wallmount Speaker**

What Hi-Fi? award winner; the medium sized 2020i bookshelf design exudes quality. The beautifully finished, low resonance cabinet encapsulates the new 25mm ferro-fluid cooled tweeter and precision engineered 125mm bass driver to produce a speaker with extended bass, an open mid-range, astonishing transient response and exceptional high frequency clarity. The 2000ST or 2000WB allow the 2020i to be stand or wall mounted.

**"How do the 2020is sound?
In short, excellent"**

What Hi-Fi? Sound and Vision, November 2011

2050i Floorstanding Speaker

Visually striking in the Gloss Black or Gloss White finishes, the exquisitely proportioned 2050i is the flagship of the 2000i Series. Improved twin 165mm drivers deliver exceptional bass extension and midrange openness, whilst the new 25mm dome tweeter adds clarity and smooth detailed high frequencies. Performance is further enhanced, both sonically and aesthetically, by its integral steel plinth with 'top configurable' floor spikes.

The flagship 2050i boasts ultra-low levels of distortion, typically found of speakers costing three or four times as much. Not surprisingly, as a result it delivers a sound quality unrivalled at its price.

**"Q Acoustics has come from
nowhere to class leader in no time"**

Q Acoustics 2000i 5.1 pack

2070Si Subwoofer

Unusually at its price level, the 2070Si subwoofer is a completely DSP (Digital Signal Processing) driven system with highly efficient Class D amplification. However, this has meant we have been able to achieve an advanced level of functionality, as well as optimising the sonic performance, by undertaking all filtering and limiting completely in the digital domain.

An example is the 'Speaker Type' function switch, which alters the characteristic of the subwoofer's frequency response at the crossover point. This allows the subwoofer to be optimised for use with either 'ported' speakers, like the rest of the Q Acoustics range, or infinite baffle models.

2000Ci Centre Channel Speaker

A centre channel speaker with twin 100mm bass drivers and a 25mm ferrofluid high frequency unit to acoustically match and complement any of the 2000i Series. Removable rear port bungs means it can deliver its outstanding, seamless performance whether it is bookshelf, stand mounted or wall mounted by using the 2000WB wall bracket.

2000ST Speaker Stand

The 2000ST speaker stand is designed specifically for the 2010i and 2020i loudspeakers. Precision laser-cut steel construction and acoustic damping foam inserts ensure quality and performance to complement the loudspeakers. Q Acoustics' unique spike adjustment means spikes can be adjusted from the top, making speaker leveling simple, without the need for visible fixings or obtrusive lock-nuts.

Features:

- Top adjustable lockable spikes
- Integral cable management
- Acoustic damping foam inserts within columns
- Top plates for the 2010i and 2020i loudspeakers included
- H/W/D mm: 586 x 240 x 300

Colours available:

Gloss Black and Gloss White

2000WB Wall Bracket

The 2000WB Wall Bracket is a unique 'Tilt and Turn' loudspeaker bracket adjusted via a single Allen bolt and allows the 2010i, 2020i and 2000Ci models to be mounted almost flat to the wall or angled down and/or sideways. Unusually, each bracket comes complete with a matching bottom plate that neatly covers all the terminals and cables, for a perfect visual finish.

It's simple to use, offers flexible positioning, hides the cables and looks great.

Features:

- 'Tilt and Turn' loudspeaker bracket
- Mount speakers almost flat to the wall or angled down and/or sideways
- Matching bottom plate that neatly covers all the terminals and cables for a perfect visual finish.

2000i Finishes

The appearance of the 2000i Series makes a striking design statement. Each speaker appears to present a slimmer and deeper profile. As well as traditional 'Graphite Black' and 'Walnut' finishes, at a small extra cost, the 2000i models are available in beautiful 'Piano Gloss Black' and 'Piano Gloss White' finishes.
